kid's drinking bottles

Beautifully-illustrated, stainless steel drinking bottles have been a strong addition to the Crocodile Creek product line. A healthy alternative to plastic or lined aluminum bottles, they are ideal for juice, milk or water. Constructed from #304 (18/8) Stainless Steel, cap is made of recyclable polypropylene (PP#5) and spout and lid are recyclable high-density polyethylene (HDPE#2). Detailed usage and care instructions included with each bottle. They are available individually or in several perfectly-sized assortments. Hand-washing recommended. Conforms to or exceeds U.S. and European safety standards. Bottles hold 13.5 oz. (400 ml.) Bottles are 7"H x 2.5"D.
